**BULGAR ATROCITIES
IN WAR-TORN LAND
BROUGHT TO LIGHT****An Investigating Committee
Confirms Tales of
Outrages.****WOMEN AND GIRLS TORTURED****Subjected to Cruelties Before Being
Burned to Death by Scores; Aus-
trian Consul's Home Does Not

United Press Telegram.
ATHENS, July 19.—Dispatches received here today testify to the truth of the early reports relating to the atrocities practiced by the Bulgarians in Serbia. A statement from the Austrian consul, located at Salabuta, charged the Bulgarians with dishonoring his wife before the eyes of scores of inhabitants of the town and before the invaders' troops. The Austrian consul gives the names of the officers and the commands to which they belonged.

Reports from the investigating committee sent to Serbia to confirm the stories were received this morning. They confirm all of the early tales, and in some details even paint the atrocities committed in more horrible colors.

The report tells of 80 women and girls found hiding by the Bulgarians in the basement of a large building. The discovery of the hiding place was made by a captain leading a company of the invaders. After dishonoring the younger girls many of them were children, the soldiers secured barrels of oil, poured it over the building, and then set fire to the place. The charred bodies were found as they were left lying.

In one of the rooms of a large centrally located building, the wealthy men of the town were herded together, and tortured before being put to death. Many of them were decapitated and placed in graves while still alive. The only survivor of the town, a man with his face slashed to ribbons, was interviewed by the committee.

It is estimated that the Bulgarians put thousands of helpless people to death and the amount of property damage done is estimated at \$20,000,000.

INVESTIGATE FIRE**Bureau of Mines Experts Visit the
Solon Mine at Fairbanks.**

J. W. Paul and Charles E. Knapp, expert chemists connected with the Bureau of Mines, made an investigation yesterday of the fire which is burning in the Solon mine of the Prospect Coal & Coke Company near Fairbanks.

Since the first of July, when the fire in some of the old workings of the mine was discovered, efforts have been made to extinguish it. All have been unsuccessful. It is not known just how the fire originated, it being possible that it smoldered for weeks before breaking out.

On account of the shallow surface it is impossible to fight the fire as in the case of a deeper mine. The Pittsburgh experts obtained samples of the gases. After analyzing these, the method of fighting will be made to subdue the fire.

Although the fire has been raging for over two weeks, it does not seem to be dangerous to the working portion of the mine nor the miners. Mine Inspector William H. Hovarth of South Brownsville, who accompanied the Pittsburgh men, has had the mine under strict observation.

The Connellsville Central and Shamrock works at Solon mine. It is the opinion of experts that this fire will continue for some time to come and it is possible that it will burn itself out.

TO INVESTIGATE MINES**Chief of Mines May Settle Differences of
Gas and Coal Interests.**

Governor John K. Tener has signed a concurrent legislative resolution authorizing the state chief of mines, James B. Roderick, to investigate conditions and methods in all ore mines, quarries of all kinds, petroleum and gas wells, with special reference to methods used in drilling wells through coal measures.

The chief is to report needed legislation in time for recommendations to be made to the legislature in 1915. For some time there has been a controversy between gas and coal interests regarding the methods of drilling and a suit is now pending in the DuPont county court to determine the authority of the department of mines under public policy to regulate operations.

MAY PICK WILLARD.**H. & O. President Mentioned as Suc-
cessor to Mellen.**

NEW YORK, July 19.—Charles S. Mellen's resignation as president of the New Haven & Hartford railroad was accepted by the directors yesterday. The resignation is to be effective upon the appointment of his successor, which is expected to be left in the hands of a special committee.

The name of Daniel Willard, president of the Baltimore & Ohio railroad, was suggested as a possible successor to Mr. Mellen.

**TITLE AND TRUST QUARTERS
ARE GIVEN A NEW DRESS****Extensive Work of Renovation Has
Been Completed; Redecoration
Has Been Extensive.**

Spick and span in its new dress of paint and varnish, the Title & Trust Company now has one of the most attractive banking rooms in Connellsville. Work of renovation that has been in progress for a fortnight is now completed and the officers of the bank take pride in the appearance of their building.

The first floor of the building was repainted and redecorated throughout. The walls and doors of the large vault were repolished and now shine like new, while the directors' room and the private offices in the rear of the building appear in their new dress of brown and gold. The reception room, which will also be used as an office for Secretary E. K. Dick, has been enlarged, being connected with the private office of Mr. Dick. A rich carpet on the floor gives it a cheery aspect.

The mahogany woodwork and the furniture of the banking room has been repolished. One of the most noticeable of the many improvements is the manner in which the building has been lettered on the front windows. It has a neat appearing background of gold and white that acts as a screen for those transacting business in the front office.

The bank takes pride in its record as "the first savings bank in Fayette county," and President Dick stated this morning that the directors intend not only to have it first in existence, but also the first in attractiveness and enterprise.

TO RESTORE KUHN COMPANY**Bankers Confer on American Water
Works & Guarantee Affairs.**

CHICAGO, July 19.—Bankers interested in the affairs of the American Water Works & Guarantee Company met yesterday in the Continental Hotel for an informal conference of bankers. An informal conference of bankers interested in the affairs of the American Water Works & Guarantee Company was held today. It is hoped by those present to work out a plan whereby the corporation may soon be taken out of the hands of receivers and placed upon a substantial basis.

The chief officers of the American Water Works & Guarantee Company attended the meeting, among them President James S. Kuhn.

TWO FACE BURGESS**Light Session of Police Court Is Held
This Morning.**

Two drunks were brought before Burgess Evans this morning. H. C. Collins of Rome, a common drunk, was given 48 hours for drunkenness and arrested by M. J. Cook of the same place. Cook claims that Collins attacked his mother with a candy bucket and hit her over the head.

Samuel Washington, colored, was arrested for drunkenness, disorderly conduct and fighting. He will be held for 24 hours.

Clarence Gibbard of Leisenring No. 1 was arraigned before Judge P. M. Buttermore of the West Side last evening on charges of assault and battery with intent to kill, proffered against him by M. J. Cook of the same place. Cook claims that Gibbard attacked his mother with a candy bucket and hit her over the head.

DEMOCRATS MEET**County Committee Gather at the
County Seat Today.**

Connellsville members of the Democratic county committee are in Uniontown to attend a meeting of the organization to be held for the purpose of electing a county chairman. The meeting will be held at 2 o'clock. Indications are that a sharp fight will be projected. Bruce F. Sterling is said to have opposition.

Connellsville members of the committee are: Melvin Gray and P. J. Harrigan, First ward; B. Rotter and Michael King, Second ward; William McCormick and A. O. Bixler, Third ward; William W. Marlette and A. D. Swenson, Fourth ward; W. E. McGinnis, Fifth ward; M. B. Cochran and Holland Piersol, Sixth ward; and Fred Rohrer and W. M. Gelm, Seventh ward.

WILL JUDGE CONTESTS**Municipal League Agrees to Pick
Youngstown Garden Winners.**

President W. S. Behanna and two members of the Municipal League will act as judges of the vegetable and flower competition conducted this morning by the H. & O. Pick & Coke Company at the Youngstown plant. The invitation was received by the league last night from Superintendent H. H. Barry.

The competition is conducted each year among employees of the company. Those residing at Youngstown are permitted to grow any variety of flowers or vegetables they desire and prizes are offered for the yard making the finest appearance. Mr. Behanna will select his associates in a few days.

**WARRANTEE MAP OF
FAYETTE COUNTY IS
ABOUT COMPLETED****Captain John Campbell, Formerly of
Uniontown, Does the Work.****CONTAINS MUCH OF INTEREST****Map Will Show Location of All the
Land Granted by the State Before
and After the Formation of County;
Interesting History Is Revealed.**

Captain John Campbell, formerly of Uniontown, chief draftsman in the office of the secretary of internal affairs, Harrisburg, is putting the finishing touches on a warrantee map of Fayette county on which he has been engaged a long time. A like map for every county in the state. When they have been completed the internal affairs office will have perfected an achievement of the highest value to the people of the commonwealth and especially to the land owners.

This map will show the exact location, with lines and measurements, of all the warrants for land granted by the state to applicants before and after the formation of Fayette county, September 26, 1783. Many of these warrants were taken out when Fayette county was a part of Westmoreland county and a few when Fayette was still a part of Bedford county. The map shows that applications were made for land in Fayette county as early as 1749, seven years before the beginning of the War of the Revolution. Among the first settlements in the county were some on the Monongahela river, above and below Fort Mifflin, and some on the Old Fort Burd and Brownsville. A land office was located at Redstone. Old Fort in 1781 for the purpose of effecting an adjustment of the certificates granted by the state of Virginia during the period she claimed sovereignty over all the southwestern part of Pennsylvania, including what is now Allegheny, Washington, Green and Fayette counties, or most of the territory which they embrace.

George Armstrong patented about 2,200 acres in Fayette county, lying in Washington and Perry townships. The tracts numbered six, the warrants being dated February 11, 1782, and the patents about the same time. Two Mount Washington farms, on which the battle of Red Bank was fought in 1754, was surveyed September 17, 1769, by order of survey dated June 13, 1769 and warranted to William Brooks. It contained 251 1/2 acres and the land was then in Westmoreland county. It was deeded October 17, 1771, Brooks conveyed the property to George Washington, with the understanding in fee simple, and a warrant for acceptance of the survey issued to him February 4th last. The consideration was \$23 pounds, 15 shillings, eight pence. Brooks had no warrant at the time of the transfer, but he had in an application for a survey. The original title of the tract was "Mount Washington."

Mr. Campbell's map shows many original owners of land whose names have entirely disappeared from the nomenclature of Fayette county; also the names of men whose descendants included in the present citizenship. Among the most conspicuous of these is Brownfield—Charles and Thomas Brownfield. Another name, that of Harlan, was prominent in the early history of the county. Members of this family went to Kentucky and acquired still greater distinction there, giving their name to Harlan county, in that state. William Harlan took up 511 1/2 acres, called "Rich Discovery," on Willis run, a branch of Georges creek, September 18, 1748. John Harlan patented 364 1/2 acres on Allen's run, another branch of Georges creek. Other Harlans who settled in that vicinity were John Harlan, Jr., and Martin, Mark, Benjamin and Susan Harlan. The Brownfields located themselves in the same neighborhood. Van Swearingen is among the mapped names of early land holders. Wonder if the judge ever ran across this anywhere in the tracing of his ancestral line?

The Friendship Hill property on the Monongahela river near New Geneva, now owned by J. V. Thompson, was warranted to Nicholas Blake December 23, 1783, and patented to Albert Gallatin January 26, 1788. It contained 379 1/2 acres.

The first court in Fayette county was held December 17, 1783, when the following nine original townships were established and their boundaries defined: Washington, Franklin, Menallen, Lancaster, German, Spracklin, Georges, Union and Wharton. Tyrone township was created in 1794.

The Campbell map contains a great deal of information of this kind. The search work, and skeleton of the map, for all parts of the county have been completed and the redrafting is now being done for the purpose of putting it in shape for the printer. Copies will then be available for all who wish to buy, at a price to be fixed by the department, either five or ten dollars.

**COMMISSIONERS RECOGNIZE
CONNELLSVILLE AS A CITY****Primary Proclamation Ignores Possi-
bility That Borough Officials
Might Be Named.**

The county commissioners recognized Connellsville as a city. In the primary proclamation today, the commissioners ignore the possibility that borough officers might be chosen.

Further than this the commissioners do not go. They include two kinds of cities for Connellsville voters to select from. There is the city of the Clark commission government bill, and that of the act of 1889, which calls for two councils, etc.

Borough Clerk A. O. Bixler filed three sets of papers. He enumerated the councilmen and borough commissioners, third class city without commission government, and borough form.

The commissioners ignored the borough papers, but directed that the proclamation include both kinds of city government.

Specimen to The Courier.

UNIONTOWN, July 19.—As a result of the collision of two West Penn cars at Brownsville Junction on the evening of June 14, 1913, Leonardo Ja Ponto has entered suit against the West Penn Railway Company to recover \$500 for injuries sustained.

The statement alleges that the collision was caused by the negligence and carelessness of the servants and employees of the defendant company and avers that by reason of the said collision the plaintiff was thrown violently backward upon the floor of the car bound for Brownsville, thereby sustaining serious injuries to his person. The plaintiff therefore seeks to recover \$500 for injuries sustained, for the expenditure of money for medicines and medical attention, and for the pain and suffering endured by reason of such injuries.

**DUNBAR TOWNSHIP
ROAD SUPERVISORS
ASK BIDS ON ROAD****Brick is to be Used Between
Trotter and Leis-
enring.****CONNECTS WITH STATE HIGHWAY****Automobile Club is Making Efforts to
Have Asphalt-Concrete Type Sup-
plied by Brick, to Make Street
Uniform; Open Bids on July 26.**

Dunbar township is to build approximately half a mile of brick road between Trotter and Leisenring this summer. Bids will be opened at the office of the South Penn Engineering Company at this place on Monday, July 28, according to advertisements which appear today. The bids are to be on a brick road with concrete curb, approximately 2,970 feet in length.

The road to be improved under the direction of Supervisors William Jacobus, J. L. Stoner and Thomas Kerns is to connect with the proposed state highway at Logan's Crossing and continue to the West Penn crossing at the Greek church, Leisenring. When both of these roads have been built, there will be a solid stretch of improved road from the borough line on the West Side to Leisenring.

Efforts are being made by the Connellsville Auto Club to have the State Highway Department alter its plans and build a brick road to Logan's Crossing instead of one of asphalt-concrete. The automobilists are suspicious of the new asphalt road. They think that along the road between Hopwood and the Summit, the asphalt sticks to tires and makes easy driving impossible.

The impression has existed, until bids were asked, that the Dunbar township road was to be of brick. This, it was stated, has been Senator Crow's impression, and he will be asked to use his influence in getting a road of this type.

It is said the proposed brick road east of town will be one of the best ever constructed. The plans call for a concrete foundation for the brick. "It ought to last forever," a member of the auto club declared.

SOMERSET COUNCIL**Street Opening Ordinance Is Passed
Unanimously by That Body.**

SOMERSET, July 19.—At a meeting of Town Council last night Jacob S. Picking, Sr., was elected a member to succeed Clarence B. Pyle, who resigned to become superintendent of the water works. Mr. Picking is a Republican. John H. Boerz, president of the Board of Trade, had been elected to succeed Mr. Pyle two weeks ago but declined to serve.

By a unanimous vote the ordinance opening North Columbia avenue was passed. This street will occupy a considerable strip on the west side of the playgrounds.

Daniel B. Keller was employed as superintendent of the street paving council proposes to construct during the summer. The work on the paving will be started as soon as possible.

John F. Trimpey was awarded the contract to set curbing along the property of the Patriot street school house at 75 cents per foot. Under the school code the school board is not liable for the cost of street paving and curbing.

BIG CONTRACT LET.**Pick Company Will Build 60 New
Houses in Region.**

The H. C. Pick & Coke Company has awarded the contract for 60 new houses in the region to D. M. Fair & Son. The approximate cost will be \$140,000. The houses will contain 10 and 12 rooms, there will be running water in the kitchens, and wiring for electric lights. A few of the houses will be for superintendents, to contain eight rooms and modern conveniences.

Thirty of the houses will be built at Colonial, seven at Lemon, five at York Run, ten at Short and four at Continental Nos. 1 and 3.

Houses for the superintendents will be built at Edenborn, Wynn and Lemon.

**UNIONTOWN TIGHT PLACE, SAYS
MAN WITH \$500,000 CHECK****Pittsburg Judge Sends Him to Mar-

His Mammoth Circus.**

Talking of millions of dollars as if they were next to him, George Drummond of West Boston, Mass., was in a Pittsburg court yesterday outlining his project for the greatest carnival on earth which is to be floated when he can make the first payment on the equipment. There was a small chase against Drummond of having failed to return two moving picture films to the firm from which he had leased them. He said this was a trifling matter, that he did not intend to keep them, and then he started to tell the court about his show.

"I have with my show," he asked Judge Marshall Brown, "I suppose it will be bigger than, well, say Hagenbeck's show."

"It will be very much larger, answered Drummond, with a smile almost of scorn. Hagenbeck's would be a second class show. I shall have one tent with 10 rings and 10 stages. I also will have spectacular plays, such as Joan of Arc and Cleopatra. I will carry as employees and actors about 10,000 people."

"I have heard at Uniontown recently weren't you?" asked Assistant District Attorney Fitzhugh. "Tell us what you think of that place."

Drummond smiled. "Pretty tight place. I tried to get a check cashed there recently for \$500,000. The cashier said the bank was short of the amount by about \$6. It was funny. Of course I didn't have that much at bank myself, but I thought it was better to make a big check instead of a little one. A person stands a better chance of getting a big one through. The checks were made of me, somehow, and sent me to jail."

"Well," said the court, "You have a big idea. While arrangements are being made for your show I think we'll send you down to Marshalsea."

DROP THROUGH RUNS**Pittsburg & Lake Erie Again Chang-
ing Engines at Youngstown.**

Trains which have been running through from Pittsburg to Cleveland on the Pittsburg & Lake Erie line, and without changing engines, are again unloading the locomotives and receiving new crews at Youngstown. The plan of making through runs was discontinued some weeks ago, but was inaugurated Thursday on account of the complaint of the engine crews, it is claimed.

The complaint of the crews, which is said to have caused the splitting of the Pittsburg and Cleveland runs, arose from a difference in wage scale alleged to be in force on the Pittsburg & Lake Erie line. It is said that a crew on the local road receives more money than one on the Erie. Consequently when the local crew made the entire run they received more money than the Erie men would receive for running over that portion of the line.

The Pittsburg & Lake Erie men would not submit to a reduction of wages and the Erie men complained because they thought they were ill treated.

COKERS VS. SCOTTDAL**Both Teams in Fighting Trim for This

The Cokers will play Scottdale on Fayette Field this afternoon and it is expected there will be a large attendance. The Scottdale team, which is a new one, has been made up of players from the local area. The Cokers have been made to accommodate a large crowd, and he expects the attendance to be large.

The delegation that will accompany Scottdale here to witness the performance of their favorites, is expected to be large. When Connellsville played in Scottdale, nearly 100 fans accompanied the team.

Verder, the Pittsburg player, will be in the box for Scottdale. Scottdale won the first clash of the series by the umpiring, according to local players, and an effort will be made by the Cokers today to play the visitors off their feet.

MUSICAL BASS BAIT NOW**Tuneful Minnow Attractive, Declares
Sharon Anglers.**

SEARON, July 19.—E. E. Wright and Wyatt Eubank have invented a musical minnow for bass fishing and claim they are having great luck with it. It is described as an ordinary wooden minnow painted red. In the front is a miniature electric light, powered for which is furnished by a dry battery, carried in the pocket of the fisherman, while a tiny music box is in the body of the minnow.

The inventors say they got the idea while fishing in the Tuscarawas river. Neighbors succeeded in catching many large bass and by observing found the fish were attracted by the singing of a cowbell near the river. This suggested the music box.

SUITS PROMISED.**James A. Veach Charges Board of

Suit against the Board of Health will be instituted if James A. Veach of the Veach estate carries out his intention to begin proceedings against the board for trespass.

Two weeks ago the board removed the health officer's office from one of the Veach properties on Main street, and the borough solicitor entered a lien against the property for the cost of the work, \$30.

Secretary A. B. Hood claims that the health officer added weight to their rights, inasmuch as they duly notified Mr. Veach to abate the nuisance.

They Do Not Know Where \$30,000
Went, but Audit Will Show It Was
Properly Expended; Invite Inquiry.**

For the purpose of investigating crowded conditions in the borough schools and also ascertain whether there have been extravagance on the part of the School Board, the Municipal League last night determined to have a committee of five of its members probe conditions. The motion to this effect, offered by Attorney E. C. Higbee, came in response to a suggestion of President F. B. Younkin of the School Board after there had been considerable discussion on the cost of running the Connellsville district as compared with Dunbar township schools.

President Younkin spoke briefly on the crowded condition of the schools. He told of questions the board has had to deal with in handling the situation, and asserted that he believed the right course had been followed. In the Second and Third wards the rooms were crowded. The attendance there had been so large that the board was compelled to make different arrangements to cope with the situation. After various plans had been thoroughly considered, that of transferring some of these pupils to the Fourth ward building and taking the fifth, sixth and seventh grades to the new building was decided upon. Mr. Younkin touched on the plan of purchasing portable buildings and of redistributing the borough. Both he said had been rejected.

Director Shaw pointed to conditions peculiar to the Second ward. He said the rooms there have never been more crowded than at present, some teachers being obliged to instruct 60 and 63 pupils. One teacher left town last term, and he believed that it was on account of overcrowding.

Charles Walsh thought the district should erect a building in the Second ward to take care of the pupils residing north of the Pennsylvania tracks. He believed the district should purchase the DuShane property for this purpose.

Attorney Higbee was of the opinion that the district should erect building wherever necessary. To handle the present situation, wouldn't be a bad plan to erect additions to the Second and Third ward buildings, he said.

Mr. Higbee wanted to know what had been done with all of the money that had passed through the board's hands during the last year. He pointed to a comparison of the cost of running the Connellsville and Dunbar township districts that had been posted on the wall by President W. S. Behanna.

Dunbar Twp. \$5,000.00
Valuation \$5,000.00
Teachers 75
Papies 2,000
Salaries \$35,000
Salaries, male \$90
Salaries, female \$52
Total \$14,000
Cost per pupil \$1.74
Millage 8
Mileage, next yr 7 1/2
Total expense \$50,000 \$97,118

The amount expended by the board in excess of salaries was \$54,000. The attorney accounted for part of the expenditure. \$5,000 for salaries, \$1,000 for bond redemption, \$1,000 as interest on bonds, and approximately \$10,000 for supplies, leaving a balance of \$30,000 to be accounted for.

"Now, where did this \$30,000 go?" he asked. "There was no new indebtedness incurred during the year and in ordinary times, I believe, from 75 to 80 per cent of the cost of running the district should be payment of teachers' salaries."

President Younkin admitted that he didn't know what became of the money. "It took us 12 months to spend it," he replied, "and you can't expect me to answer off hand where it went." When the auditors make their reports all expenditures will be made public.

Calling attention to the fact that it costs twice as much to operate the Connellsville schools as it does to run those of Dunbar township, Mr. Behanna asked: "If it costs twice as much to conduct schools in a borough as in a township, how much will it cost to run the schools when we become a third class city?"

President Younkin declared that the president of the league was making an unfair comparison. "Why not compare Connellsville with Uniontown?" he asked.

THE CONNELLSVILLE SCHOOLS.

The Conneltsville Municipal League has determined to take testimony to further determine the efficiency and economy of the city school administration, and if possible to discover what became of that \$50,000 which the two directors present at the debate last night could not account for.

The amount will no doubt be accounted for properly. The fact that the directors could not explain only indicates that their memories are faulty, not that the records of the directors are faulty. The directors will probably welcome the investigating committee. Now that the finger of suspicion has been pointed at them, they will doubtless demand vindication.

The burden of the argument last night was that the Conneltsville schools cost more money than the Dunbar township schools, and the inference was left to be drawn that the Conneltsville directors were, at the least, extravagant in their management.

In the language of Madam Malaprop, "Comparisons are odorous." It is just possible that Conneltsville has better schools and better teachers than Dunbar township.

The best goods usually command the highest prices.

The announcement that J. H. Stinebaugh of Mount Pleasant will be pardoned by the President will be gratifying to the many Western Pennsylvania friends of the prisoner who have felt that he should never have been put in prison. Stinebaugh was a victim of that madly popular law, times contemplates public justice and for lack of a better name might be called "bankruptcy."

The express companies seem to have some money to divide in spite of the recent post. This is a great pity. It expands to meet every condition.

If B. & O. trainjumpers know what is good for them they will never get off at Conneltsville, but will continue on to Uniontown or some other small place where they will not be recognized.

Conneltsville is nothing if not right up to date. The Municipal League has developed a probe.

Atlantic City proposes to recall its Mayor and two of its Councilmen. That is one of the delightful features of Commission Government. Candidates never know when they are elected.

The Democratic habit of breaking a conchoidal quorum was fatal to the quorum-breakers at the last meeting.

President Friel of the Conneltsville Council may be arbitrary in his rulings and dogmatic in his manner, but he seems to know some parliamentary law, and he also seems to know when to apply it to his advantage.

It is rumored that President Daniel Willard of the Baltimore & Ohio railroad will be transferred to the position of President of the New England railroads. The B. & O. seems to be a training school for big railroad men.

The weather this year is more freakish and disagreeable than ever. But it 1913 and Democratic. What else can one expect?

Colonel Mulhall by his own confession seems to have been something of an Ansel in certain Congressional districts. But there were others. If the Democratic Probe pursues its investigations with reasonable diligence it will discover that the woods are full of Mulhalls, and that they may be found in all kinds of political camps.

The directors of the Young Men's Christian Association seem to be a little hazy about staying in camp all night. Surely they are not afraid of the heat?

The B. & O. officials are at Conneltsville on the heels of the Western Maryland marauders. Conneltsville is always worth coming to see.

The minds of the housewives of Western Pennsylvania will be much relieved by the announcement that we have enough natural gas to last us for a century.

Save the sorrowful Conneltsville News in large and handsome headlines running clear across the top of its paper and leaving a sulphurous smell in the space beyond. "Somebody blundered!" Somebody did. Napoleon Thompson should have had his forces better in hand.

Speaker Clark is another Democratic official who cannot live on his salary and has to spend all his spare time chasing over the country delivering lectures. When the Republicans held the offices the Democrats denounced their salaries as robbery of the people. The high cost of official living is apparently better known now.

A peaceful revolution is impending in Norway. The monarchy is to be eliminated by making the king a magnificent figurehead.

With Mexico and Japan on his hands, to say nothing of his currency and tariff commitments, the country is beginning to think that the Secretary of state had better devote his attention to his office instead of peddling over the country making light and airy lectures at substantial rates of compensation.

A Western Senator proposes to move the Panama Canal machinery up into Alaska and use it for the purpose of building Government railroads

and opening up Government coal mines. The Pittsburgh Flood Commission should persuade Senator Oliver to put in a claim for the machinery for the purpose of damming the Youghiogheny river.

The Interstate Commerce Commission looks with stern disfavor upon the chains of sidetracks masquerading as railroads.

Butler will manufacture automobiles. Conneltsville engaged in the business at one time, but being a pioneer gained nothing but bitter experience. It sometimes pays to stick to a proposition even though it be unprofitable in the beginning.

France has politely requested our Government to disclose the secret of our smokeless powder. The Government will probably decline. The secret is not the property of the Government, but of the manufacturer and his allies, in war and warfare preparation, as in poker and bridge, "there friendship cases."

Some people persistently hunt for trouble, and then wonder why it pursues them.

After years of agitation and inaction it has remained for the Fish Commission to take up the question of purifying the streams to the extent of preventing certain manufacturing discharges etc. The commissioners are making substantial progress in the work. We should think this matter would come under the jurisdiction of the Water Supply Commission.

A German professor insists that kissing is not unhealthful. Neither is it unpopular.

DIPLOMACY.

By GEORGE FITCH.

Author of "At Good Old Slivash."

Diplomacy is something that is used by a nation in order to say something to another nation in such a way that the other nation will not only understand it, but will overlook it.

Diplomacy is truth with reverse English on it. A diplomat is a man who can express the fact that his nation is about to be compelled to knock the excelsior out of your in terms of undying admiration and affection.

Most diplomats wear knee breeches and medals and are very polite. A diplomat could tell a large chamberlain to take his decaying head and seek it in kerensko and the chamberlain would thank him for them kind words. But when he uses terms of extreme and devastating friendship and from another corner of the globe, that diplomat looks him over to see if his fingers are crossed. And if they are he cables home to scrub out the second best battalions fleet and send it out on a duck hunting expedition in front of the country of the first part.

When three or more diplomats gather together to decide whether one country will get off the boundary line of another or get thrown off, the meeting sounds like the love feast of a victorious political party. Nothing could be more affectionate. This is diplomacy business. Unless he was up on the rules of the game he would be accepting the invitation of the hostile diplomat to come over and ask at his home for ever at the precise time when he should be telegraphing home to mass the militia and ask the powder trust if it could please spare a few rounds of smokeless ammunition.

"Looks him over to see if his fingers are crossed."

Learn diplomat has to tell a foreign nation to get the shades out of the Western Hemisphere, he frequently makes the blunder of not beginning by alluding to the ancient friendship which has always existed and always will exist between the two countries. It takes about 60 years to produce a good diplomat. The greatest one was Annanias, but he died at the beginning of his career.

The Embarrassment of Ignorance.

A group of women were sitting on a hotel porch discussing cancosols.

"I have one of chiffon-cloth," said one woman.

"Mine is point d'esprit, I think it is so much daintier," said another.

"Mine has the cutest little rosebuds on it," said a third. And so the stream of comments ran on.

Finally a new voice joined in with the question, "What are you all talking about? What is a cancosol?"

Every face was turned toward the questioner. The gentle stream changed to a torrent of inquiries.

"Don't you know? Where have you been? Where are your eyes? Haven't you read the papers?" etc.

There is nothing so embarrassing to a woman as finding herself ignorant of some new thing that her friends are not only discussing but wearing.

If this woman had read the advertisements of the good newspapers regularly she could never have overlooked the existence of cancosols.

Do you know what cancosols are? If you don't you may find yourself in her position at any moment. Better begin now to read the advertising columns regularly so that you won't be caught in a similar predicament on that or any other subject of apparel.

Infants' Wear

You'll Find It at the Store That Looks After the Babies

Every day in the year there is a good demand for Infants' Wear. Realizing that the big majority of mothers of this vicinity look to this store to supply their wants in this line, we have made a special effort to offer an assortment of these little articles of dress for small children that you will scarcely find out-classed even in the larger city stores. The best for style, comfort and wear, we think, and at a very moderate outlay.

We offer a big line of Children's Underwear in different makes, but recommend the "M" brand in little hands, shirts, knitted waists and union suits up to 14 years. Foris Good-Sense waists, baby bonnets, hosiery, socks, booties, night gowns, coats, capes, fine saques, wrappers, kimono, long and short dresses, petticoats and skirts, sweaters, rubber sheeting, rubber pants, diapers, diaper materials, and many other things for baby's use that we will be glad to show all who inquire. Ask about them.

Early Closing Notice.

This store closes at 5 P. M. A few of our leading merchants have inaugurated this movement in behalf of those behind the counter. Therefore, allow us to suggest early shopping. You will like it, your clerk will give you better attention and altogether you will find it very much pleasanter. Just try it.

PRITTSVILLE MAN,
GOOD FIREMAN, IS
VICTIM OF FLAMEJohn Greenawalt Proves
Himself a Hero at Burn-
ing McGrigor House.

DASHES INTO MIDST OF FIRE

Leads the Bucket Brigade and Saves
the Home from Total Destruction;
Face, Chest, Neck and Arms Scorched; Other Notes From Mill Town.

Special to The Courier.
SCOTTDALE, July 19.—To the heroic work of John Greenawalt is due much of the credit of the saving from destruction by fire of the home of Mr. and Mrs. James McGrigor, Jr., at Prittsville. In the attempt Greenawalt was badly burned about the face, neck, chest and arms when he leaped through a window into the kitchen where the flames were raging worst and dashed the first bucket of water into the fire. The flames being sucked from the room by the water which an active bucket brigade passed in were responsible for some exceedingly painful burns and scalds.

The house, which was a frame one and but recently built, and with no insurance on it as the contents, was saved from total destruction by the valiant work of Greenawalt and the neighbors on Thursday.

Mrs. McGrigor, it seems, made a large fire in the stove for baking and while the bread was being baked stepped across to the home of her husband's parents, Mr. and Mrs. James McGrigor. When she returned the flames were burning from the windows of the kitchen which is attached to the house and but one story in height. The woman's frantic screams as she thought the home she and her husband have been toiling to complete paying for was about to be destroyed, aroused the neighbors, and they ran to her aid. Mr. Greenawalt was the first on the scene. Without hesitation he seized a bucket of water and smothering in one window, the furthest from the stove, he went into the kitchen and directed his fight against the fire. Other neighbors formed a bucket brigade, utilizing anything that would hold water to aid them in the fight, which was successful in that it prevented the house from catching fire. The heat was so intense that every window in the house was broken by it. However, beyond the kitchen being left burning, but a frame, the damage was stopped with that.

Mr. McGrigor, who is employed at the Standard mines, had left a coat, it is said, lying under the stove to dry and from the appearance of the charred pieces of floor still remaining, it is believed that a spark or the heat from the stove set the coat on fire and from this cause the damage resulted.

A SON AT RISK.
Born to Mr. and Mrs. Eubert Graft of near the White school house, a son, on Friday.

TO CONFERENCE.
Mr. and Mrs. D. T. Poole, Miss Norma Keller, L. T. Smith and Miss Fannie Smith leave today for Bible School Park, New York, where they will remain for about 10 days attending the Bible conference which is held under the auspices of the Practical Bible Training School, of which John A. Davis, the evangelist who worked in this section within recent years, is the superintendent.

TO INDIANA.
Mrs. Judson T. Strickler and family went to Heshbon, Indiana county, on Friday, and will visit there for several days with Mrs. Strickler's mother, Mrs. J. W. Dias. Mr. Strickler accompanied his family as far as Fairview, Indiana, returning home in the evening.

MAKING MUSCLE.
The boys' garden, under the auspices of the Young Men's Christian Association, up beyond Easthome Place, are engaging all the attention that can be paid them, between the rains. The youngsters are having all the discouragements of real farmers and truck gardeners in rearing insects and a little more rain sometimes than might be called for. If the boys had the disposition of this affair of crop growing. But the boys are sticking well to their task, and will have increased muscle as well as learning strength of agricultural lore from the experience. Some of the boys are better equipped than if they had enjoyed an expensive vacation, or had been down on the farm with uncle and the cows.

GOING UP.
The balloon ascension from the Brecken lot on Pittsburg street drew a great crowd at about 7 o'clock last

evening, but they were all somewhat disappointed when the young girl that had made the sensational ascensions previously during the week was replaced by a man acrobat. They received some thrills, however, when the balloon after sweeping upward a few hundred feet seemed to encounter a current of air that swept it toward the mills, until within a short time the man cut the parachute loose when apparently at a dangerously short height above the ground. The parachute opened all right in the distance it dropped and the man landed over near the pipe mill. The carnival folks announce that a double ascension will be made this evening at 8.30 o'clock, and this should draw the curious folks to the last evening of the carnival company in this place, Irwin is their next stopping place.

FOR WEAK KIDNEYSRelieves Urinary and Kidney Troubles,
Backache, Straining, Swelling,
Etc.Stops Pain in the Bladder, Kidneys
and Back.

Wouldn't it be nice within a week or so to begin feeling better as to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the aches and pains in the back; the growing muscular weakness, spots before the eyes; yellow skin, sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a receipt for these troubles that you can depend on, and if you want a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$5.00 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. B. Robinson, 1617 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.—Advertisement.

IT'S A MISTAKE.

Made by Many Connelville Residents.

Many people in a misguided effort to get rid of kidney backache, rely on plaster, liniments and other makeshifts. The right treatment is kidney treatment and a remarkably recommended kidney medicine is Doan's Kidney Pills. Connelville has no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Connelville.

H. D. Barclay, 404 E. Main St., Connelville, Pa., says: "I had a lame back and severe pains in my loins. I could not rest well and was hardly able to straighten after stooping. The kidney secretions were highly colored and often contained heavy sediment. Two boxes of Doan's Kidney Pills rid me of the trouble with the kidney secretions and removed the lameness and pains in my back. I now sleep soundly and feel better in every way." For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Adv.

Hands would crack open and bleed.

Could Not Do Regular Work, and Could Not Put Them in Water. Used Cuticura Soap and Cuticura Ointment Four or Five Months and Hands Were Cured.

1438 Vernon St., Harrisburg, Pa. — "My hands would crack open and bleed so that I could not do my regular work and I could not put them in water for weeks at a time. They fished me at times and I would scratch them and make sores. Sometimes I could not rest at night on account of the itching. I had used ——— for the blood and other remedies but could get no relief.

"I saw Cuticura Soap and Ointment advertised so I began using them. When I had used the Cuticura Soap and Ointment two weeks my hands began to get better. I washed my hands with the Cuticura Soap and put the Cuticura Ointment on them at night when I went to bed. I used them between four and five months and my hands were cured." (Signed) Miss Anna Volk, Apr. 3, 1913.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other distressing eruptions of skin and scalp, but they are also most effective in the treatment of pimples, blackheads, red, rough skins, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and chapped lips. Cuticura Soap (20c) and Cuticura Ointment (50c) are sold by dealers everywhere. Liberal sample of each mailed free, with 25¢ Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

LA RESISTA \$ 2.00

And fitted to your figure by an experienced corsetier, if it cost \$3.00 or above.

To get absolute beauty out of every line in the lovely frocks of today, the corset must be in accord. It must suit your particular figure and be as carefully fitted as any piece of apparel you wear.

Choosing your corset today, is not merely accepting a model that appeals to the eye—it must fit, fit, fit—else the outer apparel—the dressy wear—will not do the wearer justice in looks. So, good stores that handle good corsets must have experienced people to guide their customers in the selection of the right model. We do that very thing for our customers and the result is most gratifying.

Stocks are complete with all sizes. Second floor.
